Underlying EBITDA

The University's underlying EBITDA increased by \$127.8 million in 2019. Total underlying EBITDA was \$72.7 million in 2018. The increase was driven by a significant increase in student numbers, particularly in the Faculty of Engineering and Technology. This was offset by a decrease in revenue from research grants and contracts. The University's underlying EBITDA is calculated by removing non-recurring items such as gains or losses on the sale of assets, and changes in fair value of financial instruments.
